TruGard™ PREMIER VINYL SKIRTING

TruGard Premier by Haverford was the first vinyl skirting product and is still the leader, in use on one-third of the manufactured homes in America

- TruGard panels are thirteen-inches wide (as opposed to 16 inches) for greater installed strength
- Extra thick so they stay straight and resist buckling, for a beautiful, flat, smooth appearance
- Rich woodgrain finish available in White, Sand, Cameo, or Gray with color clear through, so scratches won't show
- Patented interlocking design holds TruGard panels tight - and the holding power actually increases under wind load
- Top rail is designed for superior holding strength, and our U-shaped ground channel provides better stability
- Limited Lifetime, 50-Year Transferable Warranty
